</tr>
</tbody>
</table>
CINKARNA CELJE, SAFETY DATA SHEET

Trade name: ZINC CUBES - ANODES

4.2. Most important symptoms and effects, acute and delayed: Nausea, burns.

4.3 Indication of any immediate medical attention and special treatment needed: Not required.

5. Fire-fighting measures

5.1. Extinguishing media

Appropriate extinguishing media: Extinguishing agents of group D, sand

Inappropriate extinguishing media: Water, CO2

5.2. Specific hazards arising from the substance or mixture:

Hazardous combustion products: Zinc oxide.

5.3. Advice for firefighters: In case of fire, use: Protective eye and respiratory mask, protective helmet, fireproof clothing, fireproof shoes, fireproof gloves.

6. Accidental release measures

6.1. Personal precautions protective equipment and emergency procedures

6.1.1. For non-emergency persons: Not required.

6.1.2. For emergency persons: Not required.

6.2. Environmental precautions Not required.

6.3. Methods and material for containment and cleaning

6.3.1. Appropriate spillage retaining techniques (fencing, covering drains, retaining procedures): Not required.

6.3.2. Appropriate cleaning procedures

Neutralization techniques: Not required.
Decontamination techniques: Not required.
Absorbent materials: Not required.
Cleaning techniques: Not required.
Sucking techniques: Not required.
Required equipment for retaining / cleaning: Not required.

6.3.3. Inappropriate retaining or cleaning techniques: Not required.

6.4. Reference to other sections: Not required.

7. Handling and storage

7.1. Precautions for safe handling

7.1.1. Recommendations shall be specified to: At work, pay special attention to the sharp edges of individual cubes in an open package.
<table>
<thead>
<tr>
<th>Safe handling of substance or mixture:</th>
<th>Use protective gloves and clothing.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Prevent handling of incompatible substances or mixtures:</td>
<td>Not required.</td>
</tr>
<tr>
<td>Reduce the release of the substance or mixture to the environment:</td>
<td>Not required.</td>
</tr>
</tbody>
</table>

### 7.1.2. General working hygiene (prohibited eating, drinking and smoking within working area; washing hands, etc.):

It is forbidden to eat food and drink, and smoking at work. Wash hands after work.

### 7.2. Conditions for safe storage, including any incompatibilities

Management of risks associated with:

- explosive atmospheres | Not required. |
- corrosive substances: | Do not store with corrosive substances. |
- incompatible substances or mixtures: | Not required. |
- evaporation substances: | Not required. |
- potential ignition sources: | Not required. |

How to control the effects of:

- weather conditions: Store in dry and ventilated areas. |
- ambient pressure: | Not required. |
- temperature: | Not required. |
- sunlight: | Not required. |
- humidity: Store in dry and ventilated areas. |
- vibrations: | Not required. |

Securing integrity of substance or mixture by use of:

- stabilisers: | Not required. |
- antioxidants: | Not required. |

Other advice including:

- prevention specifications: Store in dry and ventilated areas. |
- specific designs for storage rooms or vessels (including retention walls and ventilation): | Not required. |
- quantity limitations regarding storage conditions: | Not required. |
- packaging compatibility: | Not required. |

### 7.3. Specific end use(s):

Not required.

### 8. Exposure control / personal protection

#### 8.1. Control parameters
8.2. Limit values (LV):

<table>
<thead>
<tr>
<th>DNEL</th>
<th>No data.</th>
</tr>
</thead>
<tbody>
<tr>
<td>PNEC</td>
<td>No data.</td>
</tr>
</tbody>
</table>

8.2. Exposure control

8.2.1. Appropriate technical and engineering controls:
General technical precautions for the use of zinc anodes in production.

8.2.2. Personal protective equipment:

- **respiratory protection:** Ventilation of the room in which the process of galvanic protection takes place.
- **skin protection:** Protective suit SIST EN ISO 13688: 2013, protective shoes SIST EN ISO 20345: 2012
- **hand protection:** Protective gloves non-cut SIST EN 388: 2016, protection level 4 or 5.
- **eye/ face protection:** Protective goggles or shield EN 166: 2002
- **heat radiation protection:** Protective gloves non-cut SIST EN 388: 2016, protection level 4 or 5.

Other: Not required.

8.2.3. Environment exposure control

Not required.

### 9. Physical and chemical properties

<table>
<thead>
<tr>
<th>Information on basic physical and chemical properties</th>

<td><strong>- partition coefficient: n-octanol/water</strong></td>
<td>Not required.</td>
</tr>
<tr>
<td><strong>- spontaneous combustion temperature:</strong></td>
<td>No auto-ignition occurs.</td>
</tr>
</tbody>
</table>
### 10. Stability and reactivity

#### 10.1. Reactivity:
- It is stable, the dangerous reaction can come in contact with acid or alkalis.

#### 10.2. Chemical stability:
- Existing under normal conditions. It creates "white corrosion" in moist air.

#### 10.3. Possible hazardous reactions:
- Zinc powder, in contact with oxygen and water liberates hydrogen gas.

#### 10.4. Conditions to avoid:
- Not known.

#### 10.5. Incompatible materials:
- Oxidizing agents such as, for example, ammonium nitrate, nitric acid, sodium chlorate, acids and water.

#### 10.6. Hazardous decomposition products:
- Zinc powder, in contact with oxygen and water liberates hydrogen gas. Vodikov plin se prav tako sprošča pri stiku s kislinami.

### 11. Toxicological data

#### 11.1 Information on toxicological effects
- Not toxic.

Reference to Chapter 16

- acute toxicity: Not toxic.
- skin corrosion / irritation: Not corrosive.
- serious eye damage/ irritation: Not known.
- respiratory or skin sensitisation: Not known.
- germ cell mutagenicity: Not known.
- Carcinogenicity: Not known.
- toxicity for reproduction: Not known.
- STOT ? single exposure: Not known.
- STOT ? repeated exposure: Not known.
- Inhalation hazards: Not known.

### 12. Ecological information

#### 12.1. Toxicity:
- Not toxic.

#### 12.2. Persistence and degradability:
- No data.

#### 12.3. Accumulation in organisms:
- No data.

#### 12.4. Mobility in soil:
- For zinc (as for other metals) transport and distribution across different environmental compartments, such as, for example, water (molten particles, particulate matter associated with floating substances), earth (particles bound to earth particles, particles in the water in the soil, ...) described and measured by coefficients of metal partitions between these different particles. In the CSR, the water partition coefficient in zinc was used in land of 158.5 l / kg (recorded value 2.2) (CSR for zinc 2010).
12.5. **PBT and vPvB assessment results:**

Not in accordance with the requirements for PBTs and vPvBs.

12.6. **Other adversative effects:**

No data.

Reference to Chapter 16

13. **Disposal considerations**

13.1. **Waste treatment methods:**

Zinc is fully recyclable by melting in the production process.

14. **Transport information**

<table>
<thead>
<tr>
<th>UN number</th>
<th>ADR, RID, ADN, IMDG, ICAO-TII/IATA-DGR</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Not required.</td>
</tr>
</tbody>
</table>

14.2. **UN proper shipping name (technical name if required):**

Product is not under ADR regulations.

14.3. **Transport hazard class:**

Not necessary

14.4. **Packaging group:**

Not necessary

14.5. **Hazard to environment:**

Not dangerous for the environment.

14.6. **Special precautions for user:**

Not required.

14.7. **Bulk transport by MARPOL 73/78 Annex II and IBC Code:**

Not required.

14.8. **Tunnel code:**

Not necessary

14.9. **Classification code:**

Not required.

14.10. **Hazard label:**

Not required.

15. **Regulatory information**

15.1. **Rules and regulations regarding health, safety and environmental hazard specific to the substance or mixture:**

For the substance:
- Directive 2006/11 / EC
- 2000/479 / EC
- EC 166/2006
- 86/278 / EEC
- REACH Regulation; Chemicals act; Rules on classification, packaging and labeling of dangerous substances; Health and safety at work act; Rules on personal protective equipment; Rules on the protection of workers from the risks related to exposure to chemical agents at work; Rules on the requirements for ensuring the safety and health of workers at workplaces; List of harmonized standards whose application creates a presumption of compliance of the product with the requirements

15.2. **Chemical safety assessment:**

Not required.

16. **Other information**

Amendments made in the revised edition:

According to the CPL regulation.

List of relevant R phrases, hazard statements (H) and precautionary statements (P) which have not been written out in full in sections 2 to 15:

Not required.

Training of personnel:

Required proper education regarding the use of the product, examination for occupational safety and health.

Sources:

Material safety data sheets, REACH regulations and CLP regulations.
A key or legend to abbreviation and acronyms used in the safety data sheet:

Data specified above are based on research and experience of the supplier at the time of compiling the present MSDS. The supplier may not assume responsibility in case the buyer/user should fail to use the product in accordance with the relevant suggestions and recommendations. No information contained in the present MSDS may release the buyer/user from liability to strictly follow any legal requirements regarding his business activities.
