After eye contact:

After Ingestion:

SAFETY DATA SHEET	Page 1 of 7
CATELL BATTACTIEET	Issued on: 28.08.2008
Trade name: ZAMAK 410 - Z5	Revised on: 12.07.2018
	Revised version No.: 2

						Revised versio	n No.: 2
1. lde	entification of the subs	stance	e/mixtu	re and of the	company/	undertaking	l
1.1.	Product identifier (Product registration number):		ZAMAK 410 - Z5				
1.2.	Relevant identified uses of t substance/ mixture and uses advised against:		Pressur	e casting.			
1.3.	Details of the supplier of the distributor):	safety	data she	et (manufacturer, i	mporter, only	/ representative	, downstream user,
1.3.1.	Supplier name:		CINKAF	RNA CELJE, d.d.			PE METALURGIJA
1.3.2.	Supplier address and telephor	ne:	Kidričev	/a 26, 3001 Celje - S	Slovenija, +386	6 3 427 6000	
1.3.3.	E-mail (competent person) :		metalur	gija.tajnistvo@cinka	rna.si		
1.4.	Emergency phone number :			ase of health hazard ning, call the telepho			on duty in the event of life-
			Additional information is available: on weekdays from 7-15 pm on telephone number +386 (0) 3 427 6310				
2. Ha	zards identification						
2.1.	Classification of substance or mixture:		Alloy does not fall as dangerous.				
Refere	nce to Chapter 16						
2.2.	Label elements:		There is no need to mark the product in accordance with the EC directive.				
2.3.	Other hazards:		Not known.				
3. Cc	emposition / information	on on	ingred	ients			
3.1.	Mixture						
Chemi	cal name	CAS n		Registration n.	Conc.	(Regulation (E	C) No 1272/2008 (CLP)
		EC n. Index	REACH	(wt/vol/ max. conc. %)	Hazard statements (H)	Hazard class and hazard category	
Refere	nce to Chapter 16						
4. Fii	st aid measures						
4.1.	Description of first aid meas	ures	If there is an inhalation of zinc oxides or dust, or burns due to contact with melt.				
	After inhalation:		Take af	ake affected persons into fresh air and seek medical assistance.			
	After skin contact:		Burns on the skin, wash for a long time with running water, and in case of major burns, call for medical attention.				
	A.C						

Flush with plenty of water, seek medical attention.

In case of nausea, inhale fresh air, seek medical attention if necessary.

Cinka	Cinkarna Celje, SAFETY DATA SHEET Page 2 of 7				
Trade	e name: <b>ZAMAK 410 - Z5</b>				
4.2.	Most important symptoms and effects, acute and delayed:	Nausea, burns.			
4.3	Indication of any immediate medical attention and special treatment needed:	Not required.			
5. Fii	re-fighting measures				
5.1.	Extinguishing media				
	Appropriate extinguishing media:	Extinguishing agents of group D, sand			
	Inappropriate extinguishing media:	Water, CO2			
5.2.	Specific hazards arising from the substance or mixture:				
	Hazardous combustion products:	Zinc oxide.			
5.3.	Advice for firefighters:	In case of fire, use: Protective eye and respiratory mask, protective h clothing, fireproof shoes, fireproof gloves.	elmet, fireproof		
6. Ac	cidental release measures				
6.1.	Personal precautions protective equipment and emergency procedures				
6.1.1.	For non-emergency persons:	Not required.			
6.1.2.	For emergency persons:	Not required.			
6.2.	Environmental precautions	Not required.			
6.3.	Methods and material for containment and cleaning				
6.3.1	Appropriate spillage retaining techniques (fencing, covering drains, retaining procedures):	Not required.			
6.3.2.	Appropriate cleaning procedures				
	Neutralization techniques:	Not required.			
	Decontamination techniques:	Not required.			
	Absorbent materials:	Not required.			
	Cleaning techniques:	Not required.			
	Sucking techniques:	Not required.			
	Required equipment for retaining / cleaning:	Not required.			
6.3.3.	Inappropriate retaining or cleaning techniques:	Not required.			
6.4.	Reference to other sections:	Not required.			
7. Ha	andling and storage				
7.1.	Precautions for safe handling				
7.1.1.	Recommendations shall be specified to:	At work, pay special attention to the sharp edges of individual plates package.	in an open		

Cinkarna Celje, SAFETY DATA SHEET	Page 3 of 7
Trade name: ZAMAK 410 - Z5	

8.1.	Control parameters	
8. Ex	posure control / personal p	rotection
7.3.	Specific end use(s):	Not required.
	- packaging compatibility:	Not required.
	- quantity limitations regarding storage conditions:	Not required.
	<ul> <li>specific designs for storage rooms or vessels (including retention walls and ventilation):</li> </ul>	Not required.
	- prevention specifications:	Store in dry and ventilated areas.
	Other advice including:	
	- antioxidants:	Not required.
	- stabilisers:	Not required.
	Securing integrity of substance or mixture by use of:	
	- vibrations:	Not required.
	- humidity:	Store in dry and ventilated areas.
	- sunlight:	Not required.
	- temperature:	Not required.
	- ambient pressure:	Not required.
	- weather conditions:	Store in dry and ventilated areas.
	How to control the effects of:	
	- potential ignition sources:	Not required.
	- evaporation substances:	Not required.
	- incompatible substances or mixtures:	Not required.
	- corrosive substances:	Do not store with corrosive substances.
	- explosive atmospheres	Not required.
	Management of risks associated with:	
7.2.	Conditions for safe storage, including any incompatibilities	
7.1.2.	General working hygiene (prohibited eating, drinking and smoking within working area; washing hands, etc.):	It is forbidden to eat food and drink, and smoking at work. Wash hands after work.
	Reduce the release of the substance or mixture to the environment:	Not required.
	Prevent handling of incompatible substances or mixtures:	Not required.
	Safe handling of substance or mixture:	Use protective gloves and clothing.

		· · · · · · · · · · · · · · · · · · ·		
8.1.1.	Limit values (LV):	No data.		
Refere	Reference to Chapter 16			
	DNEL	No data.		
	PNEC	No data.		
8.2.	Exposure control			
8.2.1.	Appropriate technical and engineering controls:	General technical precautions for the use of zamak in production.		
8.2.2.	Personal protective equipment:	Personal protective equipment.		
	- respiratory protection:	Ventilation of the room in which the process of galvanic protection takes place.		
	- skin protection:	Protective suit SIST EN ISO 13688: 2013, protective shoes SIST EN ISO 20345: 2012		
	- hand protection:	Protective gloves non-cut SIST EN 388: 2016, protection level 4 or 5.		
	- eye/ face protection:	Protective goggles or shield EN 166: 2002		
	- heat radiation protection:	Protective gloves non-cut SIST EN 388: 2016, protection level 4 or 5.		
	Other:	Not required.		
8.2.3.	Environment exposure control	Not required.		
9. Ph	9. Physical and chemical properties			

9.1.	Information on basic physical and chemical properties	
	- appearance:	Metal plate, silver color.
	- colour:	Silver.
	- odour:	Odorless.
	- pH:	Not required.
	- melting/ freezing point:	385°C
	- boiling point and boiling range:	906 °C
	- flash point:	Not required.
	- vaporization rate:	Not required.
	- flammability (solid, gas):	Not required.
	- upper /lower flammability or explosive limit:	Not required.
	- vapour pressure:	1,33hPa at 487°C
	- vapour density:	Not required.
	- relative density:	6,65g/cm3
	- solubility:	Insoluble.
	- partition coefficient: n- octanol/water	Not required.
	- spontaneous combustion temperature:	No auto-ignition occurs.

Cinka	arna Celje, SAFETY DATA SHEET		Page 5 of 7		
Trade	e name: <b>ZAMAK 410 - Z5</b>				
	- decomposition temperature:	Not required.			
	- viscosity:	Not required.			
	- explosion properties:	Not required.			
	- oxidation properties:	Not required.			
9.2.	Other information	Not required.			
10. S	stability and reactivity				
10.1.	Reactivity:	It is stable, the dangerous reaction can come in contact with acid or a	lkalis.		
10.2.	Chemical stability:	Existing under normal conditions. It creates "white corrosion" in moist	air.		
10.3.	Possible hazardous reactions:	Zamak powder, in contact with oxygen and water liberates hydrogen	gas.		
10.4.	Conditions to avoid:	Not known.			
10.5.	Incompatible materials:	Oxidizing agents such as, for example, ammonium nitrate, nitric acid, acids and water.	sodium chlorate,		
10.6.	Hazardous decomposition products:	Zamak powder, in contact with oxygen and water liberates hydrogen	Zamak powder, in contact with oxygen and water liberates hydrogen gas.		
11. T	1. Toxicological data				
11.1	Information on toxicological effects	Not toxic.			
Refere	ence to Chapter 16				
	- acute toxicity:	Not toxic.			
	- skin corrosion /irritation:	Not corrosive.			
	- serious eye damage/ irritation:	Not known.			
	- respiratory or skin sensitisation:	Not known.			
	- germ cell mutagenicity:	Not known.			
	- Carcinogenicity:	Not known.			
	- toxicity for reproduction:	Not known.			
	- STOT ? single exposure:	Not known.			
	- STOT ? repeated exposure:	Not known.			
	- Inhalation hazards:	Not known.			
12. E	cological information				
12.1.	Toxicity:	Not toxic.			
12.2.	Persistence and degradability:	No data.			
12.3.	Accumulation in organisms:	No data.			
12.4.	Mobility in soil:	For zamak (as for other metals) transport and distribution across different environmental compartments, such as, for example, water (molten paratriculate matter associated with floating substances), earth (particle particles, particles in the water in the soil,) described and measure coefficients of metal partitions between these different particles. In the partition coefficient in zinc was used in land of 158.5 I / kg (recorded value 2.2) (CSR for zinc 2010).	irticles, es bound to earth d by

Trade name: ZAMAK 410 - Z5				
2.5.	PBT and vPvB assessment results:	Not in accordance with the requirements for PBTs and vPvBs.		
2.6.	Other adversative effects:	No data.		
Refere	nce to Chapter 16			
13. D	isposal considerations			
13.1.	Waste treatment methods:	Zamak is fully recyclable by melting in the production process.		
14. T	ransport information			
	ADR, RID, ADN, IMDG, ICAO- TI/IATA-DGR	Not required.		
14.1.	UN number:			
14.2.	UN proper shipping name (technical name if required):	Product is not under ADR regulations.		
14.3.	Transport hazard class:	Not necessary		
14.4.	Packaging group:	Not necessary		
14.5.	Hazard to environment:	Not dangerous for the environment.		
14.6.	Special precautions for user:	Not required.		
14.7.	Bulk transport by MARPOL 73/78 Annex II and IBC Code:	Not required.		
14.8.	Tunnel code:	Not necessary		
14.9.	Classification code:	Not required.		
14.10.	Hazard label:	label: Not required.		
15. R	egulatory information			
15.1.	Rules and regulations regarding health, safety and environmental hazard specific to the substance or mixture:	For the substance: Directive 2006/11 / EC 2000/479 / EC EC 166/2006 86/278 / EEC REACH Regulation; Chemicals act; Rules on classification, packagi dangerous substances; Health and safety at work act; Rules on persequipment; Rules on the protection of workers from the risks related chemical agents at work; Rules on the requirements for ensuring the of workers at workplaces; List of harmonized standards whose appli presumption of compliance of the product with the requirements	sonal protective to exposure to e safety and healt	
15.2.	Chemical safety assessment:	Not required.		
16. O	ther information			
	Amendments made in the revised edition:	According to the CPL regulation.		
	List of relevant R phrases, hazard statements (H) and precautionary statements (P) which have not been written out in full in sections 2 to 15:	Not required.		
	written out in full in sections 2 to 15:  Training of personnel:	Required proper education regarding the use of the product, examin occupational safety and health.	ation for	
	Sources:	Material safety data sheets, REACH regulations and CLP regulation	s	

Cinkarna Celje, SAFETY DATA SHEET	Page 7 of 7
Trade name: ZAMAK 410 - Z5	

	acronyms used in the safety data sheet:	ADR	European Agreement concerning the International
		CLP	Regulation (EC) No 1272/2008 on classification, packaging and labelling of substances and mixtures
		DNEL	Derived No Effect Level
		LV	Limit
		PBT	Persistent, Bioaccumulative, Toxic
		PNEC	Predicted No Effect Concentration
		REACH	Registration, Evaluation, Authorisation and Restriction of Chemicals
		STOT	Specific target organ toxicity
		VPvB	Very Persistent, Very Bioaccumulative

Data specified above are based on research and experience of the supplier at the time of compiling the present MSDS. The supplier may not assume responsibility in case the buyer/user should fail to use the product in accordance with the relevant suggestions and recommendations. No information contained in the present MSDS may release the buyer/user from liability to strictly follow any legal requirements regarding his business activities.
